

Bluetooth (BT) Module for Speaker

Installation:

1. Connect the audio cable between the speaker and BT module.
2. Plug the power adapter into a 110V wall receptacle.

Connection:

1. Activate BLUETOOTH on your smartphone or tablet.
2. Connect to “**SHAIBANG**”.
3. Play your favourite songs from your smartphone.

Entertainment Controller:

1. Connect the audio cable between the Speaker and Controller.
 2. Turn on the FM radio from the Controller or Remote.
 3. Adjust the volume and channel from the Controller or Remote.
- If the smartphone lost the connection with the speaker, just power on/off to the speaker to reconnect it through Bluetooth.
